Confirmation Toxic Substances Control Act ("TSCA") - PBT Regulation

As you may be aware, the Toxic Substances Control Act ("TSCA") and associated regulations allow the United States Environmental Protection Agency ("EPA") to restrict the use of certain substances, including PBT chemicals, in order to address any risk associated with these chemicals and to help reduce exposure. On January 6, 2021, the EPA issued final rules under Section 6(h) of the TSCA.

Currently none of the suppliers of sheeting or matting to J P Polymer Sheetings Limited, use any of the substances listed in this regulation. However, the presence of traces from not reported impurities of raw materials from their suppliers cannot be ruled out.

- 2,4,6-tris(tert-butyl)phenol ("**2,4,6-TTBP**").
- Decabromodiphenyl ether ("**DecaBDE**").
 - Hexachlorobutadiene ("**HCBD**").
 - Pentachlorothiophenol ("**PCTP**").
- Phenol, isopropylated phosphate (3:1) ("**PIP (3:1)**").
(collectively, the "Designated PBT Chemicals")
